EXCELLENCE

AI  
ENGINEER  
COURSE

FOR BEGINNERS

# About Us

Blismos Academy empowers individuals and organizations with in-demand Data and AI skills through practical, industry-aligned training. With flexible learning options and a focus on real-world application, we help professionals upskill, reskill and stay future-ready. Introducing our new AI program for Beginners-Empowering the next generation of AI experts.

## Highlights of Course

- 50+ Hours of Live Classes
- The right blend of Concepts and Hands-On
- Certificate on Completion
- Automated Assessments conducted periodically
- Capstone Project
- 100% Placement Assistance

# Summary

## 1 Artificial Intelligence (AI)

- Understanding AI and its evolution
- Exploring real-world AI applications
- Learning the role of an AI Engineer

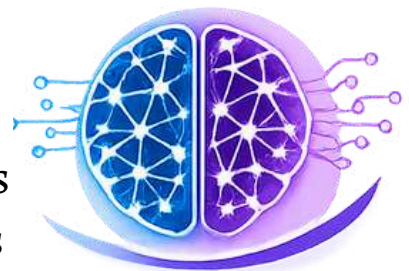

## 2 Machine Learning (ML)

- Understanding Machine Learning concepts
- Exploring different types of ML techniques
- Learning model training & evaluation methods

## 3 Deep Learning (DL)

- Understanding Deep Learning fundamentals
- Exploring neural networks and transformers
- Learning attention and tokenization concepts

## 4 Generative AI (GenAI)

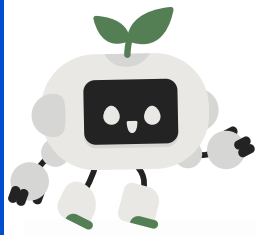

- Understanding Gen AI and LLMs
- Exploring prompting, embeddings, and RAG concepts
- Learning AI frameworks

## 5 Agentic AI

- Understanding Agentic AI fundamentals and capabilities
- Exploring agents, tools, memory, and Orchestration
- Learning evaluation, security, and monitoring

# AI ENGINEER : Key Modules

01

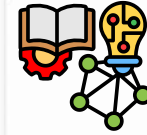

AI  
Foundations

02

Machine  
Learning  
Foundations

03

Deep Learning  
& Transformer

04

LLMs &  
Generative AI

05

Prompt  
Engineering

06

Structured  
Output &  
Applications

07

Embeddings &  
Semantic Search

08

RAG (Retrieval-  
Augmented  
Generation)

09

Frameworks

10

Agnetic Ai

11

AI Safety &  
Guardrails

12

Evaluation and  
Observability

13

Capstone  
Project
